## Limited Edition Saver Account – Issue 1

Royal Bank of Scotland

### A flexible savings account with a 12 month fixed interest rate on balances of £250,000 or more

This Information Sheet sets out the key information you need to know about your account. It should be read together with the *Savings Account Terms* and forms part of our agreement with you. Please keep it for future reference.

This is a **Payment Account**.

### Summary Box

Account name	Limited Edition Saver Account – Issue 1		
What is the interest rate?	Balance	AER (variable)	Gross p.a. (variable)
	£1 - £24,999	1.75%	1.74%
	£25,000 - £99,999	2.25%	2.23%
	£100,000 - £249,999	2.70%	2.67%
	£250,000+	4.25% (fixed)	4.17% (fixed)
	Interest is calculated daily and paid on the first business day of the month and at account closure. You'll be able to see and access the interest in your account on the following day.		
	During the 12 month term, if you have a balance of £250,000 or more, you will earn the fixed interest rate on your entire account balance.		
	If your balance drops below £250,000 at any time during the 12 month term, interest will be paid at the variable interest rate on a tiered basis. This means you'll earn one rate on your entire account balance. The tiers are set out above.		
Can Royal Bank of Scotland change the interest rate?	The interest rate on balances of £250,000 or more is fixed at 4.25% AER / 4.17% Gross p.a. for the 12 month term which means that the rate will not change.		
	The tiered rates on balances below £250,000 are variable and may go up or down. There are a few reasons for this, such as a change in the Bank of England base rate.		
	We'll give you at least 60 days' notice if the variable rates are going down. If the rates are going up, we'll tell you before or shortly after the change.		
	You can find a full list of reasons for an interest rate change and more detail about how we'd tell you about a change in section 9.2 of the Savings Account Terms.		
What would the estimated balance be after 12 months based on a range of deposits?	Initial deposit at account opening	Balance after 12 months	Interest earned after 12 months
	£100,000	£102,702.92	£2,702.92
	£250,000	£260,626.56	£10,626.56
	£500,000	£521,253.12	£21,253.12
	These are only examples and do not take into account your individual circumstances. They assume that no further deposits or withdrawals are made; there is no change to the interest rate; and any interest earned stays in the account.
