| | Balance | AER | Gross p.a. |
| | £500 - £2,000,000 | 4.18% | 4.10% |
| Interest is paid on a tiered basis from the date your account is reinvested until the maturity date. This means you'll earn one rate on your entire account balance. | | | |
| Interest is calculated daily and paid on the first business day of every month and on the maturity date. | | | |
| If you have chosen to have interest paid into a nominated account, this must be a Royal Bank of Scotland personal current or savings account with instant access (other than an instant access ISA) held in your name at the same branch as your fixed term savings account. | | | |
| If interest is paid into your nominated account, you can access it the following day. | | | |
| Can Royal Bank of Scotland change the interest rate? | No, the interest rate is fixed. This means that the rate will not change between the date you open your account and the maturity date. | | |

| Fixed Term Start Date | | 06 June 2023 | |

Can I withdraw money?

You can make additional payments or withdrawals from your reinvested account until 3.30pm on the “Last date to make additional payments or withdrawals”. After this date partial withdrawals are not allowed.

If you want to make a withdrawal before the maturity date, you must close your account by giving 35 days’ written notice to your branch. An early closure charge will be deducted from the balance of your account, except in the event of your non-voluntary redundancy or death.

The early closure charge will be the lower of the amount of interest earned on your account or 90 days’ interest.

The total amount you receive (including interest earned on your balance) will be no less than your balance at the date it was reinvested. For example, if you have earned 50 days’ interest you will only be charged an early closure charge equivalent to 50 days’ interest. If you have earned 100 days’ interest you will only be charged an early closure charge equivalent to 90 days’ interest.

The early closure charge will be deducted from the balance of your fixed term savings account.

Reinvestment of your fixed term savings account

At the maturity date we’ll automatically reinvest your deposit and any outstanding interest into a new fixed term savings account **unless** you tell us you want to opt out.

The interest rate for the new account may be higher or lower.

After your account is reinvested you’ll be able to increase or reduce your balance during a set period. We’ll send you more information on this closer to the time.

If you choose not to reinvest, your account will be converted into an Instant Saver Account on the maturity date (or if the maturity date is not a business day, the next business day) and your money can be accessed on the following day.

Please see *Term 7 of the fixed terms savings account terms and the information sheet for more information.*
