

Midlands & North Wales Healthcare Team

The Royal Bank of Scotland supports management of Bentleigh Cross Ltd

Bentleigh Cross
developing close care

The Royal Bank of Scotland (RBS) Healthcare team has supported Bentleigh Cross Ltd in their development of 68 close care apartments and 40-bed care home in Dorchester.

The Bank has worked closely with Tony Murley over the development, putting in place a specific funding package to finance the build of both the apartments and the care home. The care home was completed in November 2004 and officially opened in March 2005 by Oliver Letwin MP with the apartment build completing in December 2005. Throughout the lifetime of the building project the Bank has worked to ensure that the finance facility has been flexible enough to meet the requirements of the company as the project developed.

Robert Davis, Senior Manager, Healthcare managed the funding package and commented: "The Dorchester scheme is a major transaction for Bentleigh Cross. The reception to the scheme has been very successful and we are pleased to have worked closely with Tony and his team to provide the right funding package to enable the scheme to complete. By working closely with Tony we have clearly understood his business strategy and provided financial support to help achieve these business ambitions."

"We have been pleased with the long term support provided to us by RBS and impressed by their knowledge of the sector and the constraints we operate within."

Tony Murley, Director
Bentleigh Cross Ltd
