## We're here to help

The features of your card will make things easier if you have a variety of different impairments, or if you're using the card in poor lighting conditions.

Your card may look and feel different, but it works just like your old card and is just as secure.

## Your card has three unique features

- A series of raised dots so you'll know it's your Royal Bank of Scotland Premier Debit Mastercard.
- A carved out notch on the side of the card, so you can work out which way to insert your card into a cash machine or card reader.
- Flat print (unembossed) design including a large font telephone number on the back of the card that will be easier for you to read.

## How to use your card

To insert your card into a cash machine or card reader, make sure you're holding the card with the number and raised dots facing up, and the carved notch nearest you.

## Pay in less than a second

The four-bar symbol on your card means it's contactless and that you now have a super-quick, no-fuss way to pay for anything that comes to £100 or less. It only takes a second to pay for everyday essentials like a coffee, lunch, travel or newspaper.

So in future, whenever you see the contactless symbol, all you have to do is tell the retailer you want to pay by contactless and touch your card against the card reader.

Look out for the contactless symbol at lots of high street supermarkets, chemists, fast food restaurants and coffee shops.

Look for the contactless symbol when paying

Simply touch your contactless card against the card reader

A beep or green light shows your payment is being processed

Your payment is approved

# Safe and **secure**

You can make contactless payments with your card and to trigger this all you need to do is buy something using chip and PIN.

We limit contactless payments to £100 but we might ask you for your PIN as extra security.

Contactless payments are as secure as chip and PIN and you get exactly the same money-back guarantee if you're ever a victim of fraud.

## Keep your card details safe when banking or shopping online

We'll never ask for your card PIN or your full online PIN or password. If we think someone else is trying to use your card we may contact you by phone or text, or ask the retailer to contact us to check a payment.

---

### Remember

Don't click on suspicious emails with links or attachments

– these can be used to steal your details

Always shield your PIN in shops or at cash machines

---

## Purchase protection

If you pay for goods or services with your Debit Mastercard and they don't arrive, or are damaged when they do, we could help you get your money back.

This may include companies who have gone into administration before you have received the goods or services.

If you are unable to agree resolution with the retailer then contact your branch for help.

## What else do you need to know?

Before paying, make sure there's enough money in your account, as not all retailers check with the bank before you pay.
