Interest is calculated daily and paid on the first business day of the month and at account closure. You'll be able to see and access the interest in your account on the following day. During the 12 month term, if you have a balance of £250,000 - £3,000,000, you will earn the bonus interest rate in addition to the variable rate. If your balance drops below £250,000 at any time during the 12 month term, interest will be paid at the variable interest rate on a tiered basis. This means you'll earn one rate on your entire account balance. The tiers are set out above. Interest is earned from the first payment made into the account.			
Can RBS change the interest rate?	The additional bonus interest rate on balances of £250,000 - £3,000,000 is fixed at 1.20% AER / 1.19% Gross p.a. for the 12 month term which means that this rate will not change. The tiered rates are variable and may go up or down. There are a few reasons for this, such as a change in the Bank of England base rate. We'll give you at least 60 days' notice if the variable rates are going down. If the rates are going up, we'll tell you before or shortly after the change. You can find a full list of reasons for an interest rate change and more detail about how we'd tell you about a change in section 10.2 of the Savings Account Terms.		
What would the estimated balance be after 12 months based on a range of deposits?	Initial deposit at account opening	Balance after 12 months	Interest earned after 12 months
	£150,000	£152,402.45	£2,402.45
	£300,000	£309,896.53	£9,896.53
	£1,000,000	£1,032,988.42	£32,988.42
These are only examples and do not take into account your individual circumstances. They assume that no further deposits or withdrawals are made; there is no change to the interest rate; and any interest earned stays in the account.
